

 THE NAIROBI HOSPITAL	ENERGY MANAGEMENT POLICY STATEMENT	TNH/MR/POL/004
---	---	-----------------------

The Nairobi Hospital is committed to improving energy efficiency by establishing programmes, and a culture of energy management that is repeatable, timely, and cost effective from both financial and environmental perspectives.

Scope:

This policy is applicable to all activities carried out in the Hospital and outpatient centers either by ourselves or on our behalf.

The Hospital is committed to:

1. Integration of energy management into the Hospital’s processes as well as other Hospital standards.
2. Staff, service providers and contractors’ engagement on inculcation of a culture of energy conservation as applicable.
3. Identification of opportunities for cost savings through prudent energy use and other energy efficiency initiatives.
4. Compliance to regulatory, statutory and other applicable obligations related to energy management.
5. Protection of the environment by championing the cause for conservation and use of renewable energy sources.
6. Monitoring, measurement and analysis of energy management performance through internal and external energy audits in order to identify opportunities for improvement.
7. Continual improvement of the suitability, adequacy and effectiveness of energy management programmes.

All staff are expected to comply with this policy and contribute to its implementation.
